The History of Rain Mountain is Our Pups

Revised September 1, 2011

This list doesn't include the litters that have been co-bred and born elsewhere (such as two litters with Frontier Chinooks and BrownStone Chinooks), nor does it include litters sired by Rain Mountain studs. Each litter is a story and each pup is a unique character that went on to a home with owners that were so carefully chosen. I've kept in touch with all of them and become close friends with many, as well as placing multiple puppies with several.

Sadly, it has been a long enough time that several of these dogs have now gone to "the Rainbow Bridge" where we all hope to find our pets waiting for us someday. The generations living with me have completely turned over three times now. First were Sky and Chako and Sammer and their contemporaries, followed by nearly 14 years with Holly and her pups, grand pups, and eventually great grand pups. Now it's her great granddaughter Lolo and grandson Taga that are "head dogs" here and I've been watching their pups and grand pups.

Enjoy the Rain Mountain history and stop back every year or two as new litters and generations are added.

(Color coding: sires in Blue, dams in Green, male pups in Black, female pups in pink.)

From Other Kennels, Just Because

Northdown Skykomish *(Purchased from Northdown Chinooks, Harry Gray; my first Chinook)*

Hurricane Cheechako *(A gift from Joyce Maley in exchange for rescuing him; my second Chinook)*

Good News Rose's Vixon *(A gift after Sky was killed just before I bred her a second time.)*

Ch. PR Mystic Sahalee Rain, CGC HCT *(Along with Vixon, a gift from the COA when Sky was killed and the business I was a partner in was going bankrupt. Holly was a pup though Vixon was 3 years old.)*

Grand Ch. PR WoodsRunner Lady Rain *(Sent out as a pup by Bob & Connie Jones of WoodsRunner Chinooks of Maine to exchange genes from New England to the Pacific Northwest. We knew the day she was born that she was an excellent match for males in this area.)*

Ch. PR Hurricane Freyja Rain *(Co owned with Laughing Mountain as a favor to Joyce Maley)*

PR Hurricane Elwa Taigi Rain *(Sent west by Hurricane Chinooks to spread his genes geographically, he is from a rare bloodline.)*

Boreayl's Salishan of Rain *(She may be last on the list but she's never least; Salishan was sent out West because she was such a good match for many of the studs in this area. She has already contributed one litter and we have plans for more. Her breeder has retired from breeding Chinooks to focus on her Siberians.)*
